

Financial Sales Assessment Program

System Requirements

Equipment Requirements

The Financial Sales Assessment Program (FSAP) is delivered via videotape or DVD, simplifying the administration process. To administer the FSAP testing program, the following equipment is required:

- Videocassette player or DVD player
- Color monitor (19-inch screen or larger recommended for group administration)

Minimum System Requirements

The FSAP scoring software uses a Windows[®]-based format to ensure ease of use and maximum compatibility with existing computer platforms. For computers running the scoring software, the following minimum specifications are required:

- IBM-compatible PC with a 400MHz processor
- 128 MB of RAM (256 MB or higher recommended)
- Windows[®] 2000/XP
- 50 MB of hard disk space
- SVGA video adapter and monitor with 800 x 600 resolution and 16 bit color
- Microsoft compatible keyboard and mouse (or compatible pointing device)
- Network access, CD-ROM drive, or a 3.5-inch diskette drive (for installation)
- Local or network printer (optional)
