Career Prescription (CareeRx™)

This performance plan is specific to your personalized needs and is recommended based on your assessment results. Work your plan with your coach for maximum success.

Developmental Priorities

Teamwork — Working effectively with others to achieve a joint task or goal. In some cases, there may be a formal project team, often involving a leader. In other cases, the “team” activity merely involves asking for help from someone else to achieve a goal. Engaging in behavior that enhances the cohesiveness and morale of the work team. Assisting in conflict resolution among team members by negotiation, compromise, or mediation.

Recommended Activities for Teamwork

To Be Completed By: Completed:

On-the-Job Activities

- Teach your work team about a new topic.
- Work with your supervisor to coordinate a group project.
